The application has been amended as follows:

In the claims:

Cancel Claims 25 and 37

The following is an examiner's statement of reasons for allowance:

None of the prior art made of record includes a wiper blade comprising a support element, wiper strip, wiper arm, the cross sectional profile in which there is a value less than 0.009 and less than 0.005, and in where the force is an actual contact force exerted on the wiper blade by the wiper arm *in condition when it is pressed against a window*. The "force" of Swanepoel is the force to straighten the support element.

Further, none of the prior art made of record includes a support element having a curvature along a coordinate which follows a span of the support element, having values such that a second derivative of the curvature as a function of this coordinate being proportional to a contact force distribution, wherein the contact force distribution *decreases toward at least one end*. Swanepoel discloses the opposite, in that the

contact force distribution increases towards at least one end (Column 1 Lines 23-28).

Also, none of the prior art includes that the contact force distribution is greater in a region approximately halfway between a center and an end of the wiper blade than it is at the end of the wiper blade.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
